

Richard Hallgren

Integration architect and Azure expert with 20+ years of experience in advanced integration architectures. Used to taking responsibility for larger projects and teams, especially around Azure, Dynamics 365, and enterprise integration modernization.

REFERENCE PROJECTS

Maxbo

Current reference project

Long-running modernization of a large integration landscape spanning BizTalk, Azure, Dynamics 365, and Kubernetes. The work is focused on evolving the architecture incrementally: reducing operating cost, converting legacy BizTalk applications, and adding cloud-native services where they create clear value.

Felleskjøpet

Dynamics 365 and Azure integration modernization

Architecture responsibility for a Dynamics 365 implementation and a broad modernization of the integration platform from BizTalk to Azure. Worked across both the target architecture and concrete solution design, covering integration patterns, platform boundaries, and delivery guidance.

Apotek 1

Azure integration platform modernization

Modernization of an established integration platform from BizTalk toward a modern Azure-based architecture. The work balanced migration of existing business-critical integrations with new cloud patterns, clear architectural direction, and practical implementation support.

EXPERIENCE

Founder

Revision · Full-time

Building a web app for documenting and visualizing software and system architecture.

Solutions Architect

iBiz Solutions AB · Nov 2009 - Mar 2015

Focused on integration-related development and architecture for iBiz customers.

Senior Developer / IT Architect

YIT Building Systems AS · May 2008 - Jan 2009

Architecture, planning, and development of the BizTalk Server based integration platform for YIT Building Systems.

CTO

iBiz Solutions AB · Mar 2015 - Jul 2022

Responsible for architectural and technical strategic questions while also focusing on integration-related development and architecture for customers.

System Integration Architect

YIT Group IT · Jan 2009 - Nov 2009

Responsible for planning, architecture, and implementation of system integrations within YIT.

Senior Developer and IT Architect

Sogeti Sverige AB · Oct 2006 - May 2008

Worked as an architect and BizTalk evangelist for Sogeti's Swedish BizTalk and Integration Competence Center.

EDUCATION

Master, Computer Science

Stockholm University · 1997 - 2001

CERTIFICATIONS

AZ-900 Azure Fundamentals

Microsoft Azure

AZ-204 Azure Developer Associate

Microsoft Azure

AZ-305 Azure Solutions Architect Expert
